

Irrigation Being Activated Within Glades Farm Area

"Dry Fall" in Prospect Unless Rainfall Comes Soon

The unreasonable absence of rainfall in the farming area of the Glades makes it necessary that sub-drainage districts get water in instead of out—irrigation, instead of drainage.

Mr. Wm. Jeffries, manager of the South Florida Conservancy District which includes some 32,000 acres of land from Cardwell around to Clewiston is busy getting water in for the boys.

With the Lake at approximately 14.5 and the landside levels at 11.7 to 12, it is possible to siphon water in and this is being done in most places. Efforts are being made to get lower releases from the Lake into Hillsboro and North New River for siphoning purposes.

Mr. Jeffries is reluctant to reverse the pumps, which is entirely practical because in the time needed to re-instate them and get a good, heavy rain, which is to be expected this time of year.

About six hours is necessary when siphoning is being done to return the pumps to normal pumping out, but it takes 12 hours to re-instate them if the pumps are reversed and pumping instead of siphoning is done.

As of Thursday water level on the Glades were as follows: Hillsboro pump 12.3, South Bay 12.1, Chosen 12.8, Bare Beach 11.7 and Lake Harbor 11.8.

Slip Collins states that in the 16 years of the dike the lake is lowest at the present time of this time of year. Steve Roberts says that 1931 is the only year he remembers when the lake was as low as it is now.

Other subdrainage districts throughout the Glades area are practicing the same plan, so that South Florida have put in to effect.

Farmers are hoping that the Powers that Be won't dump a gob of rainfall all at one time on the growing crops; but are doing their best to provide for such an occasion. No one knows more than a farmer that "what goes up must come down," and there's been considerable moisture being taken up from open water and thru plant life in the Glades recently.

Shootin' Blanks

By Panaleto

Belle Glade flat feet (as policemen speak) are getting fallen arches, for some business people in the police department is probably the only outfit whose staff doesn't long for an active season.

But the department boys are bolstered by a new water cooler, a boxing bag to keep them in trim and a new force member.

A. R. Johnson joined the department about a week and a half ago and says this is the first job he has held where the customer is always wrong.

A policeman's schedule is often hard and always varied. Last week a lean lanky mother with four children and grandmother hailing from the Virgin Islands, arrived at the station with their few belongings in an onion sack.

Between whiffs of snuff, deftly taken from the box, she told her story.

"My husband been a beating on me 'bout ten years and thought I got out on my own. Besides he built that yard on the bare we was living in. I had a job here 'bout twelve years ago and come back to get it. 'Showed my money to the bus man and asked how fer it would cost me and ended in twelfth year my man lives. Hish killed from there."

When an offer of groceries was made, she became so excited she dropped the snuff box and the policeman picked it all over the reception desk.

The story ended. The department provided the travelers with a ticket back to Chisholm.

RAMBLE BILL INTRODUCED IN CONGRESS BY HEHLONG

Proposed action on stock piling ramble by the government has started. Rep. Hehlong introduced the bill on the strategic material recently.

Ramble is used in making textiles, marine and other cordage and is known for its durability and strength.

Hehlong said that he did not expect action on the bill this session but introduced the measure to get on the record. He plans to submit it again at the opening of the next session.

The bill, if carried through, would authorize a research program in the Glades to ascertain the best available land for ramble production.

The bill says an adequate supply of ramble is "vital to the industrial and military requirements of the United States and for the common defense."

Rams Ready For Game Coach Says

The Golden Rams were really getting the football rivalry spirit in practice this week and are ready for the game night, says Coach Doug Leavitt.

Probable starting lineup will be: Bert Leavitt, left tackle; Bobby Barber, left guard; Jack Moody, center; Charles Newman, right guard; Bill Miller, right end; Bill Mizell, quarterback; Ronnie Cameron, left half; Al Leathers, full back; and Joe Revel, right half.

Home side in the local stadium where holders of season tickets will sit has been changed to the north side, according to Frank O. Hobson, principal. The west gate has been closed and on the east side of the field.

The parking lot and road running north and south end of the field will be completed for the first home game at Clewiston scheduled for October 6, Hobson says.

MILLER, FCD ATTORNEY, RESIGNS DISTRICT POST

Waring T. Miller, West Palm Beach, offered his resignation as counsel for the Central and Southern Florida Flood Control District Monday, according to FCD secretary W. Turner Wallis.

The FCD and Everglades Drainage District decided to consolidate their legal departments into one legal office at the Comoco Building in a move on October 16, says Wallis.

The revision made the services of a full time attorney necessary, and Miller stated in a letter that he preferred to give up his post, rather than devote full time to the revised ad hoc legal setup.

BANK FOR CO-OPS OFFICIAL VISITS THE GLADES AREA

Mr. Leonard P. Toy, of Orlando, Fla. who represents the Bank For Cooperatives of Columbia, S. C. was a visitor in the Glades this week on official business.

According to Mr. Toy there are several co-operatives being discussed in the Glades area and plans are being formed looking of early formation of some of these.

PROCLAMATION

National Employ The Physically Handicapped Week

WHEREAS, the Congress and the President of the United States have declared the week from September 24 to October 7, 1950, as National Employ The Physically Handicapped Week, and

Vandegrift, Young And Chamblee Are Elected Executives

Livestock Marketing Group Plans Expansion Of Membership

At the first regular meeting of the permanent Board of Directors of the Glades Livestock Market Association, held Monday night, Roy Vandegrift was elected President, with George C. Young as Secretary-Treasurer and Manager. H. Chamblee was given the post of Vice President.

The Board of Directors also played a list of some thirty-five names of prospective members to be approached on the subject of joining.

The permanent Board as constituted by the first annual meeting some weeks ago, was Vandegrift and Thurmond Knight for three years, Chamblee and Leland Pearce for two years each, Ray Raulerson, John L. Evans and E. M. VanLandingham for one year each.

The Monday sales will begin October 2nd, with no sale being held on that day. This change was made after much discussion both locally and with out of city cattlemen and buyers.

One of the immediate aims of the organization is to secure more members as participants in sales and purchases. As this is a community affair and brings most real benefit to the entire cattle industry of the community than to individuals, it is urged that all cattlemen—sellers as well as buyers—should join in the venture.

The current slump in activity is due to the off season of the Glades cattle when full sales are being made of the summer grasses.

The parking lot and road running north and south end of the field will be completed for the first home game at Clewiston scheduled for October 6, Hobson says.

FINGER PRINTS CAUSE CRIMINAL APPREHENSION

Effectiveness of the local police department's finger printing service in the nation wide search for apprehension of criminals has been proved once again.

George Adam Nelson was picked up here last week for suspicion of having stolen some fireworks printed by Sergeant Funk, and his sets were forwarded to the F. B. I. for recognition.

Returned information stated that the man had been paroled from the Federal Penitentiary in Georgia on July 6, 1948, and had been in the penitentiary and Washington.

They discovered he had violated parole for the third time. The night six miles from Miami picked up Nelson from the local authorities.

ELKS INITIATE FIVE AT MEETING MONDAY

Elks initiated five new members in ceremonies at the meeting Monday night. They were: E. M. Lively, C. L. Williams, Ray L. Lyons, Wm. J. Williams and Robert Davis. Past Exalted Ruler, A. E. Kirchman presided.

Plans were outlined for a barbeque for members on Thursday night. The meal will be served from 7 until 9:30, according to Ted Rupp, chairman of the entertainment committee. An orchestra will furnish music for dancing following the dinner.

New Year Begins Sunday For Baptist Church

Reverend Wade H. Griffin announced Sunday will begin the new year in First Baptist Church activities.

Schedule for Sunday Services are as follows: 9:45 A. M. Sunday School. Many new teachers and classes will begin with the new church year.

11:00 A. M. A consecration service for more than a hundred volunteer workers. Also ordination services for newly elected elders: George H. Thompson, Don Lloyd, Paul Davidson, Don McLaughlin, William Thibault.

7:00 P. M. Training Union will begin under a revised program which has added several new workers.

LOCAL MEN LEAVE FOR MILITARY SERVICE

Elmer Kirchman, of Chosen and Willie Long Warren of South Bay joined Leroy Collier of Pahokee in reporting to the Local Board at West Palm Beach a week ago Thursday morning for induction in the military service. J. C. Osburn, negro of Belle Glade, also was among the local contingent.

These are the first group of actual inductees from the Glades area, though many have been sent for preinduction physical examination.

HOUSING PROJECTS HERE TO GET APPROPRIATIONS

Information has been received that the Public Housing Administration out of the Atlanta office will appropriate in the near future funds for rehabilitation of the Belle Glade Housing Authority.

Estimates on necessary repairs in the two camps here were forwarded some time ago, the director says.

Dryness Cause Of Fire Peril Here

"Unless it rains here soon, we're apt to have plenty of land fires," says Guy Bender, chief of the Everglades Fire Control District.

Lake Okechobee's level is extremely low for this time of year and the Kissimmee River is at a new low, Bender says.

Already the district has been called to fight an average of two fires a week. So far these have been negligible.

Burning of cut trees in the vicinity of Twenty-Mile Bend got out of control recently. The worst fire occurred a week ago Thursday night, six miles from the edge of the county line on road 27. It was reportedly set by a jeep.

The situation could reach serious proportions if the area does not have rains within the next thirty days, according to Bender.

Most of the fires have resulted from those that supposedly have gotten out of control. With the area dry, people are taking against setting any fires at all, the chief added.

Glades Vegetable Acreage Estimated At About 35,000

The harvest moon might be shining down these nights on the Glades, but it doesn't mean a thing.

Even the farmers who plant by the signs of the man in the glue don't heed his harvest guide.

Planting marks the beginning of the Glades growing season. Authorities estimate that approximately 35,000 acres of vegetables will be going in the mud. If the unusually dry weather continues, this total might be reduced by 50 per cent.

Drop. Planting is progressing at the rate of about 3,000 acres a week.

Approximately 5,000 acres of sweet corn are in with some already being harvested. The usual acreage is being used for growing lettuce, escarole, peppers and truck crops.

Potato bins will not suffer this year. About 1,200 acres of potatoes have been planted with harvest predicted for the middle of December, according to Frank Philbin, regional supervisor of the Florida Vegetable Inspection Service.

On-Farm Training To Start Here By About October 16

Already 23 Farmers Have Filed Applications Kirchman Says

Organization of an on-farm training program, a project figuring in the news recently, is about to become an actuality here, according to Willie Kirchman, veteran service officer. Classes should be started by October 16 judging by the present schedule.

To institute the program under the requirements of the G. I. Bill of Rights, at least 18 applicants must be accepted. Approximately 23 have filed for admission in the program and four or five others have voiced their intention to do so, Kirchman says.

The proposed organization will give G. I. farmers who must continue working an opportunity to enjoy education on their job.

Eligibility requirements state that the registrant must either own or lease lands and must be actively engaged in farming.

In an on-farm training meeting in West Palm Beach Monday morning, plans for the local program were outlined.

Six hours of classes a week will be conducted in the vocational agricultural rooms in the high school. The Veterans Administration will reimburse the department of education for the use of facilities. A qualified instructor has already filed for the position, Kirchman states.

Class room lectures will consist primarily of talks by local men prominent in various agricultural fields including members of the experiment station staff and representatives of seed and fertilizer companies.

The instruction will be coupled with individual in the field guidance by the instructor.

Judging by the response, before the year is over there will probably be two programs in the Glades. If more than 30 show an interest, the group will be divided into two parts, Kirchman says.

The bill provides \$75 per month for unmarried trainees, \$100 for married men with children and \$120 for married veterans with children.

Clinic Previews Football Season

Spirited atmosphere of high school days and football games prevailed at the Lions Club sponsored football clinic at Memorial Field which approximately 400 towns people attended a week ago Thursday.

Previewing the Golden Rams' season, the clinic was complete with the team, pep yell, band music, and special routines by the majorettes.

Designed to more fully acquaint the public with technicalities and knowledge of the game, the program included demonstration of five yard and 15 yard actions by team players, Joe Leavitt and Alvin Leathers.

The second half of the Golden Rams divided into two teams illustrating offensive and defensive play using different formations by conference teams.

Siamese Visitors Study Cane And Ramie Operations In The Glades

Five orientals, four Siamese or Thailanders, and one Chinese—spent two days in the Glades last week examining the cane and ramie plantations, harvesting and milling of cane sugar in the Glades, with an intersting side trip to Canal Point.

Mr. Luen Phungobbon, Director of the Sugar Organization of the Thailand Government, was accompanied by Dr. Konrad C. Hau (pronounced Shoo) a Chinese formerly with the Siamese, and one Chinese, Mr. Wang.

FIRMEN HERE HEED SCHOOL BELLS TOO

Teen agers and college students are not the only ones heeding back to school. Belle Glade firmen are in for their share of reading and writing on the subject of fire fighting methods.

Covering all phases of fire control, the sessions recently began for the season under the direction of Bob Bair, assistant fire chief. The course is scheduled to run for 11 every Saturday morning.

LOCAL LODGE TO KEEP ACTIVE ALL ELKS IN MILITARY SERVICE

At a motion at a recent meeting the local Elks group unanimously voted to keep active all members who enter the military service.

Elmer Kirchman was the first local member to join the organization and to active service.

Deposit Insurance Now \$10,000 Thru Congressional Act

The Everglades Federal Savings and Loan Association of Belle Glade announced today that, effective immediately, federal insurance coverage will be provided for all savings accounts up to \$10,000. The previous maximum coverage was \$5,000.

Hugh J. Bratley, secretary of the Association, said the increased coverage follows the signing into law by President Truman of legislative boosting insurance protection for associations with savings accounts insured by the Federal Savings and Loan Insurance Corporation.

"Our association will bear all the cost of protection for our customers," said Mr. Bratley, and the new law affords us the opportunity of securing further safeguard for the funds of our savers."

He pointed out that the insurance coverage applies equally to all accounts held by an individual, two persons with right of survivorship, trusteeships, partnerships and corporations.

Mr. Bratley said that last year his institution paid \$2,468.94 to the insurance corporation for protection of savers. Across the country as a whole, nearly \$11,000,000 was paid by savings associations in premiums to the FSLIC.

As of June 30, 1950, there were insured savings associations all over the country with total savings of the public of \$174,000,000. This amount represents about 80 per cent of all savings held by these institutions, both insured and uninsured.

At present, approximately 93 per cent of all savings held by insured institutions are insured according to the FSLIC and are already covered. With the increased coverage, this total will rise immediately to 98 per cent.

It is expected that the number of persons with savings accounts over \$5,000 will rise steadily as the public becomes more and more familiar with provisions of the new law.

PTA Executive Board Will Meet Monday

Parent-Teacher Association Executive Board will meet at 8 P. M., Monday, October 2, at the School Cafeteria.

Members are urged to attend.

Three Additional Offers Presented To Mortgagees On Country Club Property

NAVY SCORES ONE ON THE ARMY HERE

The Navy has one on the Army as a result of a recent Army Reserve Officers drill here recently.

In the game of friendly rivalry, the navy can point to the army reserve officers viewing navy training films in their instruction program.

Pfc. Prescott Is Killed In Action

Notice of the first casualty in this area of the Korean crisis was received Saturday when it was learned that Pfc. Sidney T. Prescott, 29, son of Mrs. Annie Prescott, Ocala, Fla., was killed in action probably in the vicinity of Taegu on Sep-

tember 12, according to the telegram.

Due to the serious illness of his mother, the notice was delivered to an uncle, B. T. Webster.

(Continued on Page 4)

Football Roundup

Last week end the starting gun sounded for selling cheer leaders, marching bands, pop corn, peanuts and the football season.

Although Belle Glade's Golden Rams did not play, team members and scouts were busy scrutinizing the Seacrest-Vero Beach game since Vero is our early game in the second quarter between the Pahokee Blue Devils and Clewiston.

Seacrest-Vero Beach The second match to be the order of the day. The Seacrest-Hero Vero Beach score was 13-13.

Vero Beach tallied both first and second touchdowns in the second quarter. (Continued on Page Four)

90 TO BE CALLED FOR PAPER AT A COVENANT FOR OCTOBER PHYSICAL EXAM

Information has been received by the Palm Beach County Draft Board that some 90 old boys will be called up for pre-induction physical examination during the month of October.

Notices to appear have been sent to a few who will be called the first part of the month. The list of the second contingent is being prepared for the 21-year olds and will be mailed out within a few days.

Boys from the Glades will be among the second call for October.

GIRL SCOUTS HERE NEED MORE LEADERS

Girl Scout executives here express the need for additional troop leaders. Those interested in being prepared for the 21-year olds and will be mailed out within a few days.

Boys from the Glades will be among the second call for October.

Presbyterian Executive Board Holds Meeting The women of the Presbyterian Church executive board held their monthly business meeting Tuesday evening at the home of Mrs. Harry Smith. Mrs. W. L. Crider gave devotional, using as her theme, "The Power of the Holy Spirit." A study on Parliamentary procedure was begun under the leadership of Mrs. Ralph Pigeon. It was announced Circle meetings would be held at the regular time October 3 Circle one will meet at the home of

Atlantic Coast Line Offers Improved Service To Glades

The local Atlantic Coast Line has appointed Mr. Gilbert Nolan to be in charge of the local office in the Glades building, handling travelers and such other services as the public demands.

Mr. Nolan will begin his duties here on Oct. 2, coming from Jacksonville, where he has been employed in the office of the assistant Freight Agent.

The Atlantic Coast Line recognized the Lake area for one of the most important shipping centers in the United States and opened an office in Belle Glade, feeling this central location would amply service the lake area, especially in view of the improved telephone service.

The A. C. L. R. R. is the only connecting railroad line having full office and service facilities in the Lake area.

Mr. C. R. Willis in Pahokee will continue making headquarters there, and Mr. R. W. Lanier at Belle Glade. Mr. Nolan, in charge of the office will welcome inquiries from the shipping and traveling public.

Nurses Aides To Receive Caps and Pins October 9 Officials of the Palm Beach County Chapter of the American Red Cross will be in Belle Glade at 2:00 o'clock Monday, October 9, to hold graduation exercises for the Red Cross Nurses Aides who have finished their basic training at the Belle Glade Memorial Hospital.

The ceremony will be held at the Woman's Club at 2 o'clock, preceding the regular monthly meeting of the Hospital Auxiliary, which will be held at 3:30.

All Auxiliary members and any other women who are interested in joining a new class will be trained soon, are urged to attend.

Receiving their caps and pins at this time are: Mrs. C. E. Maynard, Mrs. E. A. McCabe, Mrs. R. R. Roadman, Mrs. H. E. Pennington, Mrs. J. L. Murphy, Mrs. Harrison Raul and Mrs. Leonora Morris.

LEAVITT DENOUNCES GAME BETTING AT LIONS MEET Denouncing the practice of local people placing bets on high school football games and then telling the players to incite them, Coach Doug Leavitt gave a report before the Lions Club meeting Wednesday afternoon.

The players are already tense and have incentive enough to win without additional urging, Leavitt said.

He also attributed the merit of the split T formation to the fact that backs can get to the line of scrimmage faster.

Shirley Draz announced the club will sponsor a football benefit game October 19 between Everglades Vocational High and the Bradenton Central high school.

The health and welfare committee is compiling a list of welfare agencies and their needs for reference purposes, according to a report by Dr. Victor Mulberg.

PFC. PRESCOTT IS (Continued from Page 1) The family has lived in Ocoee Camp for six years. Pfc. Prescott worked as delivery man for the Western Union here for two years when he quit to join the National Guard. He later transferred from the National Guard to the Army and was serving with the First Cavalry 7th Regiment at the time of his death.

"The boy was a good hard worker and often would drop in to see members of the staff," says G. D. Kirkland, manager of the Western Union.

Prescott visited here on furlow from July 1 to August 1 and had been in Korea about thirty days before his death.

His mother received a letter from him about two weeks ago saying he was fighting in the Taegu sector.

Other survivors include: Ralph Prescott, Ralph Prescott, and W. O. Prescott, Ocoee Camp; an aunt, Mrs. Gene Womack, Belle Glade; and an uncle, H. F. Webster, Palmetto, Florida.

Rotarians Visit Naval Redismen Training Station C. S. Bigbee, program chairman for the day, was host to the entire Rotary Club last Friday along with the local Naval Radio Unit which is under Command of Lieu. Commander W. H. Thames and located at the Okeechobee Migratory Lake Camp.

Joe Henderson, Aviation Radioman explained to the more than 45 visitors the equipment and the training program being carried on with this Naval Reserve Unit.

In addition to a 25 watt transmitter and receiver for short wave communication locally, there are two 100 watt outposts for intermediate distances with one of them being a portable machine and equipped for both standard broadcast bands and short wave. There are also five all-wave receivers and test equipment for maintenance and repair.

There are two officers in addition to the Commanding officer, Lieu. Bill Rhodes as executive officer and Ensign Ed Rice, training officer. Tom Lloyd is radio supervisor.

The complement has vacancies for enlisted personnel for anyone desiring training in radio work. The Coast Guard and Navy are reluctant to take enlistments now, as their quotas won't allow it in this territory.

However, men who enlist in an active reserve unit such as this are relieved from Draft board liability.

It might pay the 21-year olds to investigate this reserve unit if they aren't ready to go now. Or the National Guard will also consider men in enlisted grades.

THREE ADDITIONAL (Continued from Page 1) The proposed budget includes: finishing Ave. B from Main to 4th, \$5,000; surface W. Ave. B Place from 4th to 8th, \$2,800; rebuilding S. W. 8th, \$3,500; rebuilding N. W. Ave. H \$3,800; S. W. 9th from Canal Road to the colored school \$2,250; surface S. W. Ave. A from 8th to 12th \$2,100; surface S. W. 12th from E \$2,500; rebuild S. W. 5th from A to E \$4,000; re-roof S. W. 8th \$500; surface N. E. 1st \$1,500.

CLINIC PRELIMINARIES (Continued from Page 1) Coach Doug Leavitt indicated the 29 Golden Ram players and Horace Urwin, Dorsey Hugh and Rupert McKee, members of the Palm Beach County Officials Association.

Donned in new uniforms the band headed by the majorettes displayed formations and marches which they will use at the Belle Glade-Vero Beach game tonight in Vero. The majorettes performed an Indian dance, forming a circle with lighted flares, and band members formed a semi-circle around them.

Cheer leaders led the band section in traditional school yells.

A Dutch auction of four cakes directed by E. A. McCabe netted \$151.75 to be used for band expenses.

Rotarians Visit Naval Redismen Training Station

C. S. Bigbee, program chairman for the day, was host to the entire Rotary Club last Friday along with the local Naval Radio Unit which is under Command of Lieu. Commander W. H. Thames and located at the Okeechobee Migratory Lake Camp.

Joe Henderson, Aviation Radioman explained to the more than 45 visitors the equipment and the training program being carried on with this Naval Reserve Unit.

In addition to a 25 watt transmitter and receiver for short wave communication locally, there are two 100 watt outposts for intermediate distances with one of them being a portable machine and equipped for both standard broadcast bands and short wave. There are also five all-wave receivers and test equipment for maintenance and repair.

There are two officers in addition to the Commanding officer, Lieu. Bill Rhodes as executive officer and Ensign Ed Rice, training officer. Tom Lloyd is radio supervisor.

The complement has vacancies for enlisted personnel for anyone desiring training in radio work. The Coast Guard and Navy are reluctant to take enlistments now, as their quotas won't allow it in this territory.

However, men who enlist in an active reserve unit such as this are relieved from Draft board liability.

It might pay the 21-year olds to investigate this reserve unit if they aren't ready to go now. Or the National Guard will also consider men in enlisted grades.

THREE ADDITIONAL (Continued from Page 1) The proposed budget includes: finishing Ave. B from Main to 4th, \$5,000; surface W. Ave. B Place from 4th to 8th, \$2,800; rebuilding S. W. 8th, \$3,500; rebuilding N. W. Ave. H \$3,800; S. W. 9th from Canal Road to the colored school \$2,250; surface S. W. Ave. A from 8th to 12th \$2,100; surface S. W. 12th from E \$2,500; rebuild S. W. 5th from A to E \$4,000; re-roof S. W. 8th \$500; surface N. E. 1st \$1,500.

FOOTBALL ROUNDUP (Continued from Page 1) ter, and a penalty on an extra point attempt cost Vero the victory.

Blocked punts site up both Indian Tds. Ed Elliot picked up the ball and went 20 yards for the first six-pointer. Lawton Henderson scooped it up for another later in the quarter.

Pahokee-Clawston Pahokee, which won only one game in 1949, opened its season Friday night by battling a heavier Clavston High team to a 0-0 tie.

An official penalty cost the Blue Devils the touchdown which would have meant the game in the second period. Parker, tallied in that quarter on a 49-yard pass from Full-back Jack Thomas to End Bob Peacock, only to have the TD nullified by the penalty.

Px. Plays-Clavston P. Fierces' Eagles were the only Suncoast Conference grid-ers to win a game in the first week of the new circuit. They wallowed Suncoast 25 to 0 in a Friday night game.

Quarter back Bobby Deitz and Halfback Charles King sparked the win over a green and outweighed Stuart eleven. King passed to Bill Burney for five yards and the first touchdown in the second period, and moments later intercepted a Stuart pass and ran 40 yards for a half-time lead of 12-0.

Lake Worth - St. Petersburg The Lake Worth Trojans tasted defeat at the hands of St. Petersburg's Green Devils with the score 6-0.

The teams battled to a deadlock until the middle of the third period when Quarterback Fred Robinson and End Dick Deitz came out to give the Devils their lone touchdown and the victory.

West Palm Beach-Landon Outside the Suncoast circuit, Landon High team defeated the West Palm Beach Wildcats with a 34 to 9 score.

West Palm Beach-Landon Outside the Suncoast circuit, Landon High team defeated the West Palm Beach Wildcats with a 34 to 9 score.

erocok roads in Northmoor Gardens \$2,500; rock roads on S. W. Ave. F from 4th to 8th \$2,000; rock S. E. 2nd between C and D \$800; rebuild S. E. 2nd from E to G \$1,500 and erocok S. W. 3rd from B to E \$600.

The \$46,110 budget provides \$2,000 for painting and maintenance; \$2,000 for drainage ditch cleaning and maintenance; \$2,880 for gutter and curb installation on the post office corner and S. Main and \$3,000 for curb and gutter installation near the school providing the state cooperates.

W. C. Young, representing the South Shore Athletic Council, asked assistance from the city in filling and rocking the parking lot adjacent to the school athletic field.

Commissioners agreed to donate use of dump trucks, bulldozers and grader and to pay half the cost of the rock not to exceed \$250.

Guy D. Bender, Jr., tendered a letter of resignation as tax collector and tax assessor which was accepted. City clerk Anderson was appointed to act in the position. The commission moved that a man to serve as assistant city clerk and assistant city inspector be appointed.

Commissioner Harris was authorized to ask the Florida Power and Light Company for a contract on installing 25 to 35 street lights.

Bid on a pickup truck for the sanitary department submitted by the Glades Chevrolet Co. was accepted. The commission decided to reject all bids on rock and fill and readvertise.

The City rejected a contract with the Fog-Away Insect Control Company for dusting the city until further examination of the system.

Guy D. Bender, head of the Everglades Fire Control District, received permission to erect an antenna on the water tower temporarily.

Commissioners instructed City Clerk Anderson to invite County Commissioner Paul Hardin to meet with the council at some future date.

Emmett Roberts was appointed Belle Glade director to the Resources Development Board replacing Kenneth Lutz, who says he is unable to attend the West Palm Beach meetings.

Tire Rubber Economy

Never Possible Before

Into the national achievement record has gone this phenomenal tire rubber economy—never known or possible before!

Not an ounce of wasted rubber yet each tire can give every other year's, instead of miles, of safety and service—his one tire investment for years to come.

With local communities solidly locked by extensive dealer investments in service and maintenance equipment, all of the original safety mileage of these unique tires is continuously renewed and renewable—when other tires are giving up their lives.

They are tires that work and serve at the very heart and core of the national economy in normal times, and in every possible rubber emergency.

They have set up entirely new standards of safety and mileage by which other tires are now being judged and measured, everywhere in the United States.

Whether with black, or with whitewall, they provide their exclusive *Protecting Carapace*, their new *Royales Tread* and *Traction*, and they deliver up to 60% more safe mileage.

They have resulted from many years of continuous research, experience and U. S. Rubber investment. They are the only such tires in the world, priced as low as life and safety permit.

They are the tires that now roll and serve with the nation, with the rubber economy never known before, remaining fresh and new in safety when other tires are giving up their lives.

Negro News

Written By Negroes Of The Community

Bean City News

Mattie Jean Youngblood, Reporter

The community welcomes the return of Mrs. Ora D. Lee, principal of Bean City Elementary School. Mrs. Lee studied again this summer at Miami University, Oxford, Ohio. She reports a progressive summer and hopes to return next year.

The school enrollment is climbing each week. By November the majority of students will have returned from out of state. Many patrons remained this summer and found living easier than they expected.

This year our Community Club work will include improvement of housing, streets and utilization of the soil and associated resources. Our back yards will yield a good living if we are thrifty and resourceful. Let us try this year to raise a garden, some chickens, ducks, pigs or what have you in mind? One of our patrons, Mr. Man Green raised a fine hog last year. It was cured and enough meat and lard to last the family a season. What he did others can do also.

Reverend T. K. Kenney and wife are vacationing in Georgia. His members and friends gave him a fine send off for a much needed vacation.

The fifth and sixth grade classes organized last week. They plan to work together to make this a best term for Bean City School. The fourth grade, Miss J. T. A. group to help beautify school and grounds. Janie Lee Jackson is the president and George Pindas is secretary. Dorothy McVair is treasurer. Their first project is to place seats on the grounds.

The senior P. T. A. will meet the second month Monday night. This is community recreation night. All invited to come enjoy a good clean movie. Read the Belle Glade Herald weekly.

New Bethel Baptist Church

Mrs. G. M. Douglas, Reporter
Mrs. Annie Mae Everett

Sunday School was opened at the usual hour by the Supl. Dea. S. Kendall. The teachers were at their posts. The lesson was taught fifteen minutes. The lesson was carefully reviewed by the pastor. The offering was \$516. Class No. 1 still holds the banner. We were grateful to have a host of the old members back in school again. Many of our members are returning from the northern states.

11:00 o'clock devotion led by Dea. Bobbie Lee Tucker. Inspirational service by the Jr. Choir. Our pastor read for the morning scriptures 1 Cor. 13: Chapter. The text was the 24th verse of the same chapter. Sub. Running to Obtain Eternal Life. He preached a helpful sermon. Two were added to the church. We enjoyed having Mrs. Willie Mae Jones, a member of First Baptist Church to worship with us. Sister Jones always welcome at 6:00 o'clock the B. Y. P. U. was carried out by the acting president and the group chaplain.

7:30 devotion conducted by Mrs. Julia Holland and Mrs. Daisy Hart. The Sr. Choir rendered song service. Our pastor came forth and read for the evening scripture lesson Joshua 7:15-16. Sub. Take the Curse Thing From Among Us. He delivered a soul stirring message after the general service. An after program was rendered by the Early Dawn Quartet of West Palm Beach. Every one enjoyed the singing program very much. Offering for the day was good. All readers are welcome to attend our services.

First Baptist Church

Miss Lavilla Jones, Reporter
Rev. J. B. Adams, Pastor

The pastor preached two soul-stirring sermons Sunday. His text was Rev. 3:17 and sub. "The Baptized Church." Sunday evening he spoke on the subject, "Where Are The Lost?" The Deacons are asked to meet at the church Thursday night at 7:30 p. m. All members are urged to

Bean City Elem. School

Visitors were Miss Robinson of Belle Glade and a teacher of Pahokee Elem. school. And Miss Miller of New York City who is visiting her sister Mrs. Novelle.

Last year, the Junior Red Cross of our school did tremendous work in carrying out the ideals of its organization, and it is anticipating doing a much better job this school term.

Some of you are puzzled as to what the Junior Red Cross is and its purposes. Well, the Junior Red Cross is a division of membership of the American Red Cross and is the American Red Cross in the schools.

The Junior membership functions in partnership with the chapter and actively participates in programs which are appropriate for our school. Too, the Junior branch offers supplementary welfare services.

Our council called its first meeting September 14 for organization. Miss Sarah E. Jones, sponsor, served as chairman.

Representatives from all grades, the following officers were elected: president, Alphonse Powell; vice president, Clarence Jasper; secretary, Cora Lee Kelly; reporter, Wanda Whitehead.

In the organization, the sponsor, Miss Sarah E. Jones, will try to foster in the members the altruistic attitude and the spirit of helpfulness toward the unfortunate or handicapped, to promote unity of action in projects requiring unity, to discover needs for, and service, to our community and the nation, and to develop better human relations by worldwide service. Yes, our Junior branch is endeavoring the needs of the school and serve as a contributing factor to regular learning situations.

"Orchids and Onions" 1. Orchids to those who are tolerant of others. 2. Onions to those who are narrow-minded. 3. Orchids to those who are cooperative in organized work. 4. Onions to those who are not co-operative. 5. Orchids to those who are plain and straightforward in their thinking, talking, planning and doing. 6. Onions to those who like to promote idle gossip. 7. Orchids to those who are to their own business. 8. Onions to those who make everybody's business theirs. 9. Onions to those who could make and keep friends. 10. Onions to those who cannot maintain friends. 11. Orchids to those who are friendly in need as well as in friends in need. 12. Onions to those who are so-called friends.

"Friends And The So-Called Friends" How would you feel if you had no friends? Friends help you when your steps are faltering and come to your rescue when you are in dire need of help. Friends are always ready to help. Share the burdens of their comrades and aid in building them up where they are torn down.

The so-called friends are those who will laugh and talk in your face and behind your back. They are cutting your throat with idle gossip like a two edged sword. They are not willing to aid you when you are in trouble. If you are about to attain success in a task that is very outstanding, and which would probably bring you glory, they are ready to discourage you by presenting, "If I were you I won't," so that you may not advance but be defeated by your effort to attain achievement.

You must choose your friends wisely because all who say, "I am your friend" may not be one. Pick your friends like the house wife picks the best of pork to cook in the chow-chow or picks leather for his shoes. And remember—lest you forget: "That a friend in need is a friend indeed."

Fourth Grade A News We would like for you to meet us and know us. Won't you visit us sometime when you are not busy at home or at work? We would like to know all of our classmates, parents and friends. Please come to visit us and we will show you how we are getting along at our school.

One of us is being introduced to you this week. We wrote "My Story Book" last school term in the third grade in which we wrote the history of our lives. Our teacher was Mrs. M. J. Evans. We got so much fun out of it because we were able to learn our real selves. Here we are—one of us: "When do you think I am?" Would you like to know my name? You will not have to guess because I will tell you. My name is Eva Mae Small. My family calls me "mama." I am nine years old. I was born

April 19, 1941 at Fort Lauderdale, Florida.

My mother and step-father are Mr. and Mrs. Leroy Turner. I have one brother. His name is James Small, but everyone calls him Tony. We live at 616 Avenue B, Belle Glade, Florida. Scarlin is my cat. He is black as night with a snow white stomach, and four white paws. My! doesn't that sound as if he is a pretty cat? Well you can just bet that he is, and what's more, he is as smart as a whistle. He likes to catch rats. After he plays with them for awhile, he eats them.

My favorite activity is playing ball. Pee Wee Reese, the short stopper, is my favorite player.

My lucky stone is the diamond. My! I wonder if I will ever own one. My flower is the daisy. My favorite color is white.

"The Athletic Club" The Athletic Club has been reorganized under the direction of Mr. E. H. Fitzgerald for the school term 1950-51.

The main purposes of the club are to provide recreational activities for all members of the intermediate grades (4-6), to aid in developing the principles of good sportsmanship and to learn new games.

We expect to accomplish some of our aims by finding out the various types of games the members are interested and provide them with them. The following persons were elected as officers: president, Cleo Hugley; vice president, Henry Allen; secretary, Sylvia Smith; business manager, James Turner; reporter, Gloria Carrinan. There are at present thirty seven members.

We have begun things to accomplish this year.

Pahokee Elementary School

By Stansleigh Merrill

Greetings! from Pahokee Elementary School to our "Glades" neighbors. Although school has been in session for a few weeks now, we are just now getting around to saying "hello" to you. But you'll certainly forgive us for being a bit tardy if you could see the new "face lifting" our school plant has been getting and meet our new teachers and pupils. It's all been quite exciting and time-consuming for us.

Our old elementary school building, to think of it, more sturdy "legs," received a new coat of paint, and a classroom has been added. The intermediate building is bright and resplendent with newly painted classrooms.

What's new with our teaching staff? Well, we have two new teachers, both of whom teach in the primary department. Miss Carrie Clark, second grade, will do our special music and choral singing work. We have been desirous of obtaining a teacher specially trained in this area, and feel quite fortunate in having Miss Clark. She is a native of the Keystone State, Pennsylvania.

Her B. S. degree in music was awarded at Westchester State Teachers College, Pa., and she has pursued graduate study in Education at Flak University. Miss Clark's experience includes work as music and English instructor in schools of Arkansas, South Carolina, and Florida. Her last position was in Hollandale, Florida. In addition to her music ability, Miss Clark has a special interest in Religious education and dramatics.

Our new first grade teacher is Mrs. Claudine Person who comes to us with ten years

teaching experience in the elementary schools of Washington, D. C. Mrs. Person received her B. S. degree from Miller Teachers College in Washington, and holds a certificate in Elementary Science from Virginia State College. In addition to her special training and ability in handicrafts, Mrs. Person has had five years piano training at Howard University's Special School. No doubt many of you have become acquainted with Mrs. Person through her husband, Rev. G. Person, and his work with migrants which is sponsored by the Home Mis-

sions Council of North America. During the summer months, our principal, Mr. Stansleigh Merrill, attended a summer school at Florida A. and M. college. He has returned to us with many new ideas and plans for reorganizing and revitalizing the school's program. According to Mr. Merrill registration figures indicate a 24% increase in enrollment over last year. Our primary objectives, as outlined by our principal are as follows: (1) Closer coordination and correlation of curriculum at all grade levels, (2) Initiation

of an audio-visual program in classroom technique, (3) Purchase of new instructional aids and playground equipment, (4) Revitalization of school-community relationships. Continued on Page 7.

FOR SALE—Terms or cash. High and dry. 1 lot box 110. Close in at Jupiter on Indian Town Road. \$300.00 and \$400.00 for corner lots. Only 10 for sale. Owner Mrs. Ora D. Lee, Box 15, Bean City, Florida. A few minutes drive to beautiful colored Jupiter Beach. 9-29-51

FIRST IN FLORIDA ... FIRST IN THE SOUTH!

STRONGEST proof of the quality and all-round economy of Crown and Crown Extra Gasolines is the fact that these two motor-fuels have always led in popularity... not only in Florida, but in all the southern states in which they are sold!

Crown and Crown Extra are the first choice in their respective fields, among hundreds of thousands of motorists for outstanding all-round performance... in every kind of weather, on every kind of road. Good results, on the road, where it counts, is the answer to such an overwhelming public preference!

Another reason for the preference for Standard Oil products is the extra service motorists have come to

expect at the Standard Oil sign. Standard Oil dealers endeavor to match the extra quality of the products they offer with the extra car services and on-the-road conveniences you want.

For carefree motoring... and low-cost transportation... see your neighborhood Standard Oil dealer.

STANDARD OIL'S FLORIDA salaries and commissions... additions to and maintenance of Florida plants and equipment... licenses and taxes, including product taxes which we collected and paid to State of Florida authorities, amounted to over \$17,000,000.00 in 1949.

By Russell Kay

"Nobody really likes a 'sour-puss'—even a highly skilled and efficient one. One the other hand, everyone responds to a smile and a friendly word."

"Winning friends is important in any business—but it's especially important to us in Florida, because so much of our income depends on visitors who must come a long way to buy what we have to offer."

"Fair treatment and expert service, given with a cheerful smile, will bring these visitors back for profitable repeat visits—and bring their friends, too."

"So Courtesy pays dividends to everybody. As Florida grows and prospers, its businesses grow and prosper. More and better jobs open up. And the folks who are 'on the ball'—who are efficient, friendly, courteous—move ahead."

"And what does it cost? Not one Cent! In fact the professors say it takes far more muscular energy to frown than it does to smile."

"So since it is good business for Florida, for our Company, and for us as individuals—since it makes pleasant, happier living—and since its easier anyhow—LET'S PUT A PERMANENT SMILE ON FLORIDA'S MAP."

The above, practical and worthwhile suggestion came to me recently in the form of a circular issued by the Florida Power and Light Company. It was prepared for company employees, but it is so true and so important to successful happy living, that I felt it worthy of passing on to you.

With it came an attractive sticker for my car and another for my telephone that read, "Courtesy Wins Friends For Florida and You."

As we approach another busy winter season in Florida it is well to be reminded that Courtesy is an asset of inestimable value. Its dividend rate is enormous—the more you use it the more it pays off.

Instinctively you LIKE the person who takes a second to say "beg pardon" or "I'm sorry" as they step over you to reach a theatre seat or force their way through a crowded bus to reach an exit. They don't like to disturb you any more than you like to be disturbed. They are doing nothing different than you yourself do on countless occasions. If their courteous remark is accompanied with a smile, it is doubly effective.

Little words like "please" and "thank you" work miracles when used in a pleasant tone. They should be made a habit. Too many folks, selfishly concerned with their own problems, are inclined to lose sight of the fact that they are dealing with human beings when they address a clerk in a store in a telephone operator. On the other hand, some employees make their work more difficult with sullenness and inattention. We form lasting impressions of people and places on the basis of little things. That is why Courtesy plays such an important part in life. A moment's thoughtfulness, a pleasant smile, a friendly word can endear a person or a place to a total stranger.

Maybe the food isn't all that it should be, but you still like the cafe where the waitress greets you with a smile, is attentive and alert. You remember pleasantly the bus driver who helps you pick up your packages when some thoughtless person jostles them from under your arm. You like the town where folks give you affections with a smile and you encounter a friendly, cheerful atmosphere.

One sully cop can give a community a black eye that will cost many dollars worth of business. Maybe a confused tourist makes a turn where he shouldn't or a lady has trouble with her starter on a busy thoroughfare. If the officer yells "Hey, you, what you think you're doin', the offender is hurt and will dislike that town for life. A courteous approach always gets quicker, better results. The officer could just as easily say, "I'm sorry friend, but you can't turn left at this corner." or "Having trouble lady? maybe I can help you." He will then make warm and lasting friends for the town. Let's be more courteous. It's good for the mind, good for the morale, good for business and good for Florida and YOU.

You can fight Communism at home while our boys fight it on the battle field. Join the "Crusade for Freedom," make a contribution to the cause and enlist as a volunteer worker to help get signatures on the Freedom Scroll.

Miss Bessie Collier and Mrs. Mercedes Robinson also attended summer sessions: F. A. and M. C. and Bedune Cookman respectively.

however, we were quite encouraged by the enthusiasm evinced by the parents who did attend. It is the hope of parents and teachers that we will be able to organize a strong P. T. A. in Pahokee this year, for it is through this organization that the school itself will become strong.

Consumers' Problems

By Mrs. Ora D. Lee

Mrs. Lee has done special research on this problem at Tuskegee Institute, Alabama, Hampton Institute, Virginia, and Miami University, Oxford, Ohio.

Social Aspects Of Housing

This course of Home Planning, compiled by Ora D. Lee under the instruction of Dr. Florence Wagner, will deal with (1) "What is Good Housing?" (2) Standards for Good Housing" (3) Housing Conditions and their effect upon the Family" (4) Relation of Housing Conditions upon Health of the Family and (5) Conclusions—Generalizations" and will be continued each week in the HERALD.

What Is Good Housing?

1. Many and varied would be the answers to that question. However, I choose the following since it embraces the features most important in living today and tomorrow. Good housing is a shelter, with its equipment, furnishings, personality, character, arranged for the expression of activities of the occupants, so located that it produces the most convenient transit thus contributing to the promotion of life values as stability and progress of that society to which the family is a part.

I choose this definition also because it seems to be valid for any time or place. Many of the specific conditions vary from time to time and from place to place; even from family to family. In spite of this

variation, there are certain minimum conditions which are believed to be essential to any home or community if the inhabitants are to be happy.

2. A good neighborhood, and a satisfactory site, possessing the qualities of growth and future development are as important to good housing as the good house. The values of the home life can not be related apart from characteristics of the neighborhood or community.

3. The standards for good housing, which will be discussed next, must include standards for the community as well as the house.

Standards For Good Housing

1. B. R. Andrews describes levels of standards, including the minimum standard, the moderate standard, and the liberal or well-to-do standard.

2. The average size family consists of three or four members, who as a group engage in activities of various kinds, part of them inside the home. Each individual has various interests and activities of various kinds; due to age, sex, personality, preparation, occupation and station in life. In spite of housing good or bad, the family group is still the unit on which our society is built. Adequate and beautiful provision in the home for family interests and activities strengthens family ties by increasing the number of activities taking place within rather than outside the home.

3. We will here discuss minimum standards that there will not be any falling below these minimum requirements for family living in any area of the United States.

The minimum standard, which would apply to any type of house usually occupied by a laborer's family with an income of \$1200 to \$1500 per year, would require five rooms, including three bedrooms if both boys and girls were members of the family; a bathroom and toilet; kitchen equipped with stove, table, water heat, sink, laundry tub, and large forage for living room area; large bedroom at least 10'x12' and small bed room at least 9'x10'; adequate stoves or means to heat the entire

house, and at least as many rooms as persons in the family. The rent if not owning property should not exceed one-sixth of the family income, or value of house not to exceed 2 1/2 times the family income. The structure and equipment not to succeed in creating safety hazards. Adequate sunlight and ventilation, a wholesome environment physically and socially; adequate space and facilities for recreation for children and adults. Anything missing these minimum standards is classified below standard or may be rated according to neighborhood layout as slums.

4. The plan and arrangement should be based upon the fundamental biological and social needs represented by the list of family needs and activities. The chief consideration should be physical and mental health of the family. The plan including the site should encourage the four objective immediately by sponsoring a week ago a Parent-Teacher social. Due to inclement weather our attendance was not as good as expected, empty beauty, convenience, simplicity, honesty, fitness, harmony, restfulness, character, personality and should harmonize with the advances in art and sciences which make for enrichment of life and for efficiency and economy in construction. The plan should allow flexibility in use when alteration or extension is necessary to meet changes in family needs, particularly in small one family houses and should harmonize with the neighborhood plan of development. The house should provide privacy for the family group and for individual members of the family. This requires: isolation from other dwelling units. With no windows facing directly into windows of other dwelling, which is often the case in overcrowded areas. Privacy from the standpoint of quietness as well as space; separate place for the children to play, study and rest. Pleasant quarters for old people in the family; sleeping quarters or rest rooms grouped for privacy arranged that any bedrooms can be reached without passing through another bedroom.

(Continued Next Week)

The area of Continental United States in square miles is 3,738,393.

"LAWN PICTURE"

CHLORDANE

The lawnmower, the trimmer, fertilizers and plenty of hard work all go to make a beautiful lawn. But in the sub-tropics there are many pests that can ruin an otherwise beautiful lawn by killing the roots, sucking the life-giving juices and in many other ways causing destruction.

Today, through modern science in the laboratories of the Velsicol Corporation has come a tried and proven insecticide to control these pests. Its name, chlordan, appears on many of the formulations appearing on your dealer's shelves. So, when you order an insecticide for your lawn be sure it contains the pest destroying chlordan.

For further information, see your local dealer or consult your county agent or experiment station for proper recommendations.

Chlordane controls household insects, too!

day, October 4 and proceed to the reorganization of the Town Council for the next fiscal year which opens on October 1.

The mayor and three councilmen elected at this time will meet in office for the coming two weeks over Mrs. M. Challenain and C. E. Critchfield.

The election will be at the Town Hall from 7 a. m. to 5 p. m. The election board as appointed will be Clerk, Mrs. G. J. Barstow, alternate, Mrs. A. N. Lamoureux, Inspectors, Mrs. A. H. C. Willis and Mrs. A. B. Barnes, alternate Mrs. Malle Walker.

FIRST PTA MEETING SCHEDULED FOR OCT. 2

The Parent Teacher Association will hold its first regular meeting of the year at the school auditorium on Monday, October 2 at 8 o'clock. Plans will be made for the annual Halloween Carnival and for the program of the year.

The Woman's Home Demonstration Club will be guests of Mrs. Walter H. Thames at the Everglades Experiment Station on Thursday, October 5, in their regular monthly session. They will meet at the school cafeteria and attend in a body.

Mrs. Thames has been an active member of this club until moving to the Station during the summer.

WILLIS WARREN HONORED WITH FAREWELL PARTY

Willis Warren, son of Mr. and Mrs. J. W. Warren, left at the Florida National Bank in Belle Glade, the first select service man to be called for induction from South Bay since the close of hostilities of World War II, was honored at a farewell party last Wednesday evening at the school cafeteria.

Junior Walker and Don Barstow were hosts assisted by Mrs. O. E. Walker who was in charge of games and entertainment.

Home made ice-cream, cake and cookies were served to Willis Warren, Miss Dorine Mathewson, Howard Woodham, Mr. and Mrs. Kenneth L. Warren, Miss Betty Jo Bearden, Thomas Williams, Miss Margaret Mathewson, Boyd Kaufman, Miss Maxine Walker, O. D. Martin, Miss Dorothy O'Donoghue, Mr. and Mrs. Carroll Warren, Miss Lucretia Campbell, Russell Prier, Miss Bennett, Jean Prewitt, Elmer Kirchman, Miss Nannette Acree, Mrs. Sue Woodham, Mr. and Mrs. Calvin J. Peacock, Charles Byrd, Howell and Alton Goodbread, Mrs. Walter Ivey, Mr. and Mrs. D. L. Shiver, Mr. and Mrs. B. Woodham, Mr. and Mrs. Rudy, Mr. and Mrs. Ted Pope, Mr. and Mrs. Herbert Priest, H. L. Delaney, Laverne Gilson, Miss Kathryn Cook, Hubert Swain, Milton Harrelle, Mr. and Mrs. John Lamoureux, J. K. Davis, Mrs. Esther Walker.

Willis Warren and Elmer Kirchman left early Friday morning from West Palm Beach with other Palm Beach County draftees for induction at Miami, and thence to Fort Jackson, S. C. for basic training.

LAKE HARBOR MAN IS INJURED IN ACCIDENT

Joel Wingate, Jr., 23, of Lake Harbor was seriously injured when his auto crashed into the back of another car Saturday night about four miles north of Pahokee on State Road 15.

Wingate was driving his sedan about 60 miles an hour on a one-way construction area and struck the rear of a car driven by Zeke Johnson, 28, Negro of Dawson, Ga. His car overturned.

Rushing to Everglades Memorial Hospital in Pahokee, Wingate was treated for severe head lacerations and back injuries. His condition was reported critical Sunday.

Rodney Willis, also of Lake Harbor, passenger in Wingate's car, and Johnson were both uninjured. Damage to the cars was estimated at \$700.

State "Crusade For Freedom" Organization Meets Completion

Florida's effort in the national "Crusade For Freedom" campaign began to take on momentum last week as organization work neared completion and live committees became active in many sections of the state. The opening of the Crusade and the delay in receiving material put off the start of the campaign, but State Chairman Harold Colles said this week that the campaign is really rolling now and he expressed confidence that Florida would succeed in meeting her quota of 10 million or more names on the "Freedom Scroll."

Many large industrial organizations plan to sign up employees in groups, cooperating with local committees in their effort to secure as large an enrollment as possible.

Organized labor has given the program full endorsement and union locals will canvass their members in an effort to return a 100 per cent enrollment.

STAYDOWN OF THE OVERSEAS MANAGEMENT, CIRCULATION, 1950, HAS BEEN PUBLISHED BY THE BELL GLENN PUBLISHERS, INC., 1940, STATE OF FLORIDA, COUNTY OF PALM BEACH, BEFORE ME, a notary public, in and for the State and county aforesaid, after personally appeared Luther Jones, Secretary and Treasurer, Bell Glade Publishers, Inc., who, having been duly sworn according to law, depose and say that he is the Secretary of the Bell Glade Publishers, Inc., publisher of the Bell Glade Herald, published at Belle Glade, Florida, that the following is, to the best of his knowledge and belief, a true and correct statement of the management of the aforesaid publication for the year ending on the 31st day of December, 1949, as required by the Act of March 3, 1933, amended in section 227, Florida Laws and Regulations, printed on the reverse of Form No. 101.

1. That the name and address of the publisher, Bell Glade Publishers, Inc., is: Bell Glade Publishers, Inc., 1940, State of Florida, Belle Glade, Florida.

2. That the name and address of the owner, Bell Glade Publishers, Inc., is: Bell Glade Publishers, Inc., 1940, State of Florida, Belle Glade, Florida.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are:

Bondholders: Luther Jones, P. A. LePine, H. D. Buck, Della Glade, Florida; S. V. Fawcett, Pahokee, Florida.

4. That the two paragraphs next above giving the names of the owners, stockholders or other security holders, contain not only the list of stockholders and security holders, but also the names and addresses of the individual owners, stockholders or other security holders, as the case may be, and as such are true and correct.

5. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are:

Bondholders: Luther Jones, P. A. LePine, H. D. Buck, Della Glade, Florida; S. V. Fawcett, Pahokee, Florida.

6. That the two paragraphs next above giving the names of the owners, stockholders or other security holders, contain not only the list of stockholders and security holders, but also the names and addresses of the individual owners, stockholders or other security holders, as the case may be, and as such are true and correct.

7. That the average number of copies of each issue of this publication sold or distributed through the country during the twelve months preceding the date hereof were 112,000.

This information is required from daily, weekly, semi-weekly, and irregularly newspapers only.

WITNESSED AND SUBSCRIBED before me this 28th day of September, 1950.

Looking for honest-to-goodness COMFORT?

Better Buy Buick!

YOU'VE probably heard a lot of talk about comfort in 1950 cars.

But we'd like to offer one suggestion, which is—**let a Buick speak for itself.**

We'd like to have you settle yourself (your family too, if you have one) on a Buick's soft, deep, comfort-angled cushions, and see how restful they are.

More than this, we'd like you to sample that comfort in motion. Slip your fingers around that slender steering wheel, touch toe to treadle and take off in the smooth, unbroken surge of power that Dynaflo Drive delivers.

We'd like to have you hunt out some of the less-smooth streets or back roads that never seem to get fixed—and put Buick's soft coil springing and solid underpinning to rough and practical test.

"Standard on Buicks, optional on others and Buick and Buick models."

FOUR-WAY POWERFRONT

This regular front end (1) sets the style note, (2) sets the regular coil-springed front end, (3) sets the regular coil-springed front end, (4) sets the regular coil-springed front end, (5) sets the regular coil-springed front end.
